# about me

*leesa fleming, an irish-german photographer who calls Lisbon her home since 2021. Her background in communication design is what first brought her to photography, yet Portugal is where she really found her ground in creative work and shooting in the water - now an important part of her life and work.*

*leesa works with clients on a one-to-one basis as well as for surf retreats, surf houses and brands.*

*Her personal work also plays a big role, it is the place she freely explores her vision of the world which she then translates back into her client-based projects.*

*besides shooting, Leesa has also gained a passion for and experience in teaching photography (particularly water photography) to other aspiring as well as intermediate photographers.*
